#### Instructions to use:

- a) rinse the stick before placing it inside a water bottle (with lid)
- b) Fill the bottle with boiled/filtered water to the brim and shake the bottle for about 5 times. Let the stick stay for about 1 hr. The stick will react with the water to produce active Hydrogen.
- c) After 1hr, hydrogen-rich alkaline water is produced. It is now ready for drinking. After that top up with water again to the brim and the cycle repeats.
- d) Wash the stick as per instructions once a week.
