## Mirae HB671 3-Temperature HOT / WARM / COLD / Water Dispenser

Made in Korea  
 한국에서 만드는

### Special Features

- Choice " Hot Water " - Hot, Warm and water rapid heat boosting
- UV LED Sterilization - 4 time a day

- Eco Sensor - Energy saving
- Safety button for children

	Hot / Cold/ Warm Water Purification System
Point of Use (POU)	Table top (Hot / Warm / Cold) Water Dispenser
Special Features	Hot, Warm ~ water rapid heat boosting Auto UV LED sterilization – 4 times a day Eco Sensor – Energy saving Safety button for children
	Durable textured polycarbonate; clean easily and resist scratches for year of use
Color	White
Dimension/ Weight	W260 x D485 x H506 mm
Tank / Reservoir Capacity	3 litres (cold) (4°C - 10°C) 1.2 litres (hot) (80°C - 90°C) 3 litres (warm) (40°C - 50°C)
Tri-Temperature	
Display	Hot /Cold Water LED
Power Consumption	Cold 105W; Hot 505W
Cooling System	Compressor chilling system with coolant
Refrigerant Gas	R134a Non-Ozone depleting refrigerant gas
Heating system	Heating Band
Temperature Control	Automatic non-adjustable Bimetal
Overload Protector	Bimetal Sensor
Power Supply	220 - 240V / 50Hz / 60Hz / 13amp
Filter	Water Filtration System (built-in)

### 4-Stage (Built-In) Water Purification System

**Sediment** - Removes undissolved particles such as dust, rust & suspended solids from feed water

**Pre-Carbon** - Pre-activated Carbon Filter Eliminate excessive chlorine and other organic substances, unpleasant taste & odor from water

**Post-Carbon** - Post-activated Carbon Filters Further elimination of chlorine, organic substance from water and enhance water freshness

**Silver- Carbon** - Silver is a powerful bactericide
